Everyday that's taunted
Another day you're haunted
Something you wanted forgot it
Everyday you're feeling
Another day I'm healing
Something you started forgot it

Chains holding names
Torment and shame
Is this the same
Distant from rain you got it

I'll paint the perfect picture
Your tooth is in my hand

The rest just keep on laughing
Why can't you understand
Nothing is perfect season
Spontaneous demons breathing
This is something you don't expect

Everyday you're finding
Another way of hiding
Someone is lying forgot it
Everyday that's taunted
Another day you're haunted
Something you wanted forgot it
