"Beautiful Surprise"

It's like yesterday
I didn't even know your name
Now today
You're always on my mind
I never could have predicted that I feel this way
You're beautiful surprise
Intoxicated every time I hear your voice
You've got me on a natural high
It's almost like I didn't even have a choice
You're beautiful surprise

Whatever it is you came to teach me
I am here to learn it cause
I believe that we're written in the stars
I don't know the future hopes
But I'm living in the moment
And I'm thankful for the man that you are, you are, you
are
You are everything I ask for in my prayers
So I know my angels brought you to my life
Your energy is healing to my soul
You're beautiful surprise
You're inspiration to my life
You're the reason why I smile
You're beautiful surprise
