"Wings Of Forgiveness"

I just want you to know after everything that we've
been through I just want you to know that I still love you
That I still love you

Had to go across the water
Just to find what was here in my heart all along
Spent so much time trying to be right
That I was dead wrong
If Nelson Mandela can forgive his oppressors surely I
can forgive you for your passion

You're only human
Let's shake free this gravity of resentment and fly high
(and fly high)
You're only human
Let's shake free this gravity of judgment and fly high
on the wings of forgiveness

Had to run to the arms of curiosity
Just to find what was here in my life all along
I have found that the art of simplicity simply means
making peace with your complexity
If Gandhi can forgive persecution surely you can
forgive me for being so petty

I'm only human
Let's shake free this gravity of resentment and fly high
(and fly high)
You're only human
Let's shake free this gravity of judgment and fly high
on the wings of forgiveness

I searched for romance, flowers, and affection
What I found is a lesson on what love really is
And how the game of love isn't
Bout how much you can take
But that authentic love is about how much you can give

After everything that we've been through I just want
you to know that I still love you
Want you to know that I forgive you

(thank you for teaching me how to give)
Want to let you know how much you changed my life
Want to let you know you taught me how to fly
And I wrote this song to tell you this
I'm better 'cause you taught me how to give

I took a swim in the sea of guilt and misery
To find myself on an island in the middle of nowhere
In my solitude I asked in all the highest truth
And what I was told was to thine own self be true
If Jesus can forgive crucifixion then surely we can
survive and find a resolution

Let's keep it moving
Let's shake free this gravity of resentment and fly high
(and fly high)
You're only human
Let's shake free this gravity of judgment and fly high
(and fly high)
Let's keep it moving
Let's shake free this gravity of commitment and fly
high on the wings of forgiveness

After everything that we've been through I just want
you to know that I still love you
Want you to know that I still love you
(let's fly high)
Want to let you know how much you changed my life
Want to let you know you taught me how to fly
And I wrote this song to tell you this
I'm better 'cause you taught me how to give

I still love you
Want you to know I still love you
Want you to know I still love you
And I always will love you
And I want to let you know I forgive you
I want to let you know I still love you
Want you to know I still love you

I just want you to know I still love you
Want you to know I still love you
Want you to know I still love you
And I want to let you know I forgive you
I want to let you know I still love you
I want to let you know I still love you
Just want you to know I still love you
Just want you to know I still love you
Want you to know I still love you
And I want to let you know I forgive you
