I woke up this morning, you were the first thing on my
mind
I don't know where it came from, all I know is I need you
in my life
You make me feel like I can be a better woman
If you just say you wanna take this friendship to
another place

Can I walk with you through your life?
Can I lay with you as your wife?
Can I be your friend till the end?
Can I walk with you through your life?

You've got me wondering, if you know that I am
wondering about you
The feeling is so strong that I can't imagine you're not
feeling it too, yea
You've known me long enough to trust that I want
what's best for you
If you wanna be happy then I am the one
that you should give your heart to

Can I walk with you through your life?
Can I lay with you as your wife?
Can I be your friend till the end?
Can I walk with you through your life?

Now everyday ain't gonna be like the summer's day
Being in love for real, it ain't like a movie screen
But I can tell you all the drama aside you
And I can find what the worlds been looking for forever
Friendship and love together

Can I walk with you through your life?
Can I lay with you as your wife?
Can I be your friend till the end?
Can I walk with you through your life?

Can I walk with you
Through your life till the day
That the world stops turning?
Can I walk with you

Till the day that my heart stops beating
Beating

Can I, can I walk with you through your life?
Can I walk with you
Till the day that the birds no longer take flight?
Till the moon is underwater
Can I walk with you?
Can I walk with you?

This is the moment I've been waiting for
Can I walk with you?
Yea yea
Can I walk with you?
Oh
Can I walk with you?
Can I walk with you?

You are everything I've been looking for
Can I walk with you?
Creative intellectual
Can I walk with you?
Through your life
Can I walk with you?
As your wife
Can I walk with you
