Your favorite food
What you like to do
Your favorite color
Or any other

Thing on your mind
That you'd like to share
'Cause I can stay here
And listen to every word

Because I'm interested
Can I be an instrument
For changing your life
Is that alright?

Because I'm interested
I'd rather be with you instead
Of anyone else

Because I'm interested in your middle name
Now don't be ashamed, no
It's between me and you
Everything that we do

So let your guard down
Because there's a new girl in town
Gonna turn it around
I hope that you are down

Because I'm interested
Can I be your instrument
In changing your life
Is that alright?

Because I'm interested, yeah
I'd rather be with you instead
Of anyone else

No no

I'm wide open
No more secrets, no more lies

Don't wanna live like a fool
But I will for you

So I'll beg, I'll scream
I'll call, I'll write
If that's what it takes
For you to be in my life

Oh, because I'm interested
And I'll be an instrument
In changing your life
Is that alright?

Because I'm interested
And I'd rather be with you instead
Of anyone else

Oh no

Because I'm interested
And I'll be an instrument
In changing your life
Is that all right?

Because I'm interested
And I rather be with you instead
Of anyone else
