I just want you to know after everything
That we've been through
I just want you to know that I still love you
That I still love you, yeah

Had to go across the water
Just to find what was here in my heart all along
Spent so much time trying to be right
That I was dead wrong

If Nelson Mandela can forgive his oppressors
Surely, I can forgive you for your passion

You're only human
Let's shake free this gravity of resentment and fly high,
and fly high
You're only human
Let's shake free this gravity of judgment
And fly high on the wings of forgiveness, oh

Had to run to the arms of curiosity
Just to find what was here in my life all along
I have found that the art of simplicity
Simply means making peace with your complexity

If Gandhi can forgive persecution surely you can
Forgive me for being so petty

I'm only human
Let's shake free this gravity of resentment and fly high,
and fly high
You're only human
Let's shake free this gravity of judgment
And fly high on the wings of forgiveness

I searched for romance, flowers, and affection
What I found is a lesson of what love really is
Found the game of love is about how much you can't
take
That authentic love is about how much you can give

After everything that we've been through

I just want you to know that I still love you
Want you to know that I forgive you
Thank you for teaching me how to give

And I wanna let you know how much you changed my
life
And I wanna let you know you taught me how to fly
And I wrote this song to tell you this
I'm better 'cause you taught me how to give

I took a swim in the sea of guilt and misery
To find myself on an island in the middle of nowhere
In my solitude I asked in all the highest truth
And what I was told was to thine own self be true

If Jesus can forgive crucifixion surely
We can survive and find a resolution

Let's keep it moving
Let's shake free this gravity of resentment and fly high,
and fly high
You're only human
Let's shake free this gravity of judgment and fly high,
and fly high

Let's keep it moving
Let's shake free this gravity of commitment
And fly high on the wings of forgiveness

After everything that we've been through
I just want you to know that, I still love you
Want you to know that, I still love you
(Let's fly high)

And I wanna let you know how much you changed my
life
I wanna let you know you taught me how to fly
And I wrote this song to tell you this
I'm better 'cause you taught me how to give

I still love you
Want you to know, I still love you
Want you to know, I still love you
And I always will love you

And I wanna let you know, I forgive you
I wanna let you know, I still love you
Want you to know, I still love you

I just want you to know, I still love you
Want you to know, I still love you

Want you to know, I still love you

And I wanna let you know, I forgive you
I wanna let you know, I still love you
Want you to know, I still love you

I Just want you to know, I still love you
Want you to know, I still love you
Want you to know, I still love you
And I wanna let you know, I forgive you
