

## Indian Fall "Follow Us"

Visit "[Follow Us](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Walking away in the midnight  
Yeah I'm falling  
I'm going down  
The river waits for a whisper  
Generated  
With or without you...  
I'm going...

Follow me, follow us  
Here is the path  
Going down, follow us  
Follow me, follow us  
Here is the path  
Going down, without you

Remove your pain, it's just fear  
Fear leaving  
Your body now  
Step in the dark, it's just silence  
You won't remember  
Must been fall asleep  
Awake in dust in the midnight  
Oh I'm feeling  
I'm going down  
The river waits for a calling  
Generated  
With or without you...
