Dont

Dont give up on me baby
Though weve seen shaky times
Theres still solid ground to be found
I said dont
Dont give up on me baby
Though I may seem strong
Its only because
Cause youre around

You know me better than I do
You know how things go to my head
I said a few things to you
Things that were better left unsaid
But dont
Dont give up on me baby
Cause you know I love you
And I always
I always will

Now love
Loves a sweet kind of pain
It can give you wings to fly
Then it drags you on down
But darling
Ill never love this way again, no
Youre the sweetest, sweetest, sweetest love
Ive ever found

You know me better than I do
You know how things go to my head
I said a few things to you
Things that were better left unsaid
But dont
Dont give up on me baby, no
Cause I love you
And I always
Always will
