"GoProblem Child"

Visit "[GoProblem Child](#)" on MotoLyrics.com

raise your hands
raise your hands high
don't take a seat
don't stand aside
this time
don't assume anything
but go go go
i am a problem child
i've been wild all my days
all my anger and my rage
my senses said it would lead me astray
i said go go go
raise your hands
raise your hands high
don't take a seat
don't stand aside
this time
don't assume anything
this time
don't assume anything
i said this time
don't assume anything
one two three four
jump jump jump so high
watch me let you down
if i stumble i will stumble
if i fall i will fall
try to hold it like rain in the river
but everything is getting bigger
better this won't last forever
touch me and fall
yeah
