"I Feel The Christmas Spirit"

I used to mark the calendar and watch the days go by
With the pretty little snowflakes falling from the sky.
And when they whiten the mountain tops, the valleys,
and the trees;
I can feel the Christmas spirit take a hold of me.

And I feel the Christmas spirit blowing in the air,
There's lots of joy and happiness in the presents that
we share.
No other day can take its place throughout my memory.
The world is celebrating with friends and family.

When I was just a girl at home, I waited patiently
To open up my presents underneath the Christmas
tree.
With holly in the window, the fireplace burning bright,
The whole world is rejoicing on this Christmas night.

And I feel the Christmas spirit blowing in the air,
There's lots of joy and happiness in the presents that
we share.

And no other day can take its place throughout my
memory.
The world is celebrating with friends and family.

The children dream of Santa with jingles on his sleigh,
Rudolph-the-red-nosed-reindeer gladly leads the way.
With joy they all are singing , I hear them laugh and
play.
Can't you feel the Christmas spirit on this special day?

Well, I feel the Christmas spirit blowing in the air,
There's lots of joy and happiness in the presents that
we share.
And no other day can take its place throughout my
memory.
The world is celebrating with friends and family.
No other day can takes its place throughout my
memory.
The world is celebrating with friends and family,
family, family.
