Visit "[It Really Is](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The snow has fallen like it does every year  
The tree I know so well is aglow  
And folks are filled up with the usual holiday cheer  
As they hang pretty lights and mistletoe

Oh, but this year is different for you and for me  
Our own little miracle on our own little street  
Never before have I loved 'Silent Night' so  
But now that you're here by my side

Baby it is, baby it is  
It really is a wonderful life

I'd never noticed that the crackle of a fire  
Makes music when accompanied by a kiss  
And when did I start having dreams about pumpkin  
pies?  
Well, there's not a lot that's sweeter than this

Oh, but this year is better for you and for me

Our own little miracle on our own little street  
Never before have I loved 'Silent Night' so  
But now that you're here by my side

Baby it is, baby it is  
It really is a wonderful life

Oh, but this year is better for you and for me  
Our own little miracle on our own little street  
Never before have I loved 'Silent Night' so  
But now that you're here by my side  
Darling with you, by my side

Baby it is, baby it is  
It really is a wonderful life
