What am I gonna do with you?  
So far away, it makes me blue  
I never mind just being alone  
but I felt defeated and I let it show  
You know I could have ridden the rainbow  
And this once I needed you to let me know

CHORUS:

I couldn't keep myself from making promises  
I'm of two hearts and up all night  
I couldn't keep myself from making promises  
I'm gonna get it right this time

Who's gonna say you paid your dues  
With the strung out soundman  
and the promoter dude?  
With a pat on the back just a little far down  
You cut your teeth on a drinking crowd  
Ah never mind you didn't make it  
What's the point if you're never gonna shake it?

CHORUS:

And when the spring is coming around  
And I'm feeling braver I'm gonna lay it down  
And when the teenage hoodlums come out  
I'm gonna give 'em a smile  
And just a little doubt  
Ah never mind you didn't make it  
What's the point if you're never gonna shake it?

CHORUS:
