Tonight I've been sleepin on the mountain top
With a billion stars for my witness
In the morning I go down as the sun comes up
I take a drink from the bitter root river

Have you been lonely
Yes I've been lonely
Yes I've been lonely too

Said now have you been lonely
Yes I've been lonely
Yes I've been lonely too

Yeah well tonight I've been sleepin on the mountain top
With a billion stars for my witness
In the morning I go down as the sun comes up
I take a drink from the bitter root river

Sometimes been lonely
Sometimes been lonely

Sometimes been lonely too
Sometimes been lonely
Sometimes been lonely
Sometimes been lonely too

Tonight I've been sleepin on the mountain top
Yeah I got a million stars for my witness
In the morning I go down as the sun comes up
I take a drink from the bitter root river

Have we been workin
Yes we been workin
Yes we been workin too
I said have we been workin
Yes I been workin
Have we been workin too
