The girl's known trouble
The wind's to blame
It blew her to any town USA
That's my middle name

And where we go
Remains nameless
A motion picture
Alive and framelss

And we are together finally
And the dog caught up with
The rabbit is laughing hysterically
And we are together
You and me

We are together
Together

She's got that sadness
She twinkles like the witch
And you conjure a love spell
I'm gonna give a 5 year itch

Low to the ground
High in the holler
(We are together)
In any old February
(Together)
Hot under the collar
(Collar)

We are together finally
And the dog caught up with
The rabbit is laughing hysterically
And we are together
You and me yeah yeah

The setting sun at sadness beach
Just in view and out of reach
Resign myself to solitude
When love is hard to get and rude

And though I said I did not care
It was way before we'd gotten there
Winded by the fruitless chase
Until I saw you face to face
(Face to face)

And we are together finally
And the dog caught up with
The rabbit is laughing hysterically
And we are together
You and me
The whole world

And we are together finally
(Finally, finally)
And the dog caught up with
The rabbit is laughing hysterically
And we are together
You and me
