Welcome me to The City of Angels
Devil prophets still hold my hand
I walked your stillborn streets for hours
Ethnic echoes spitting out their trials
They tell me I'll

I'll be the first to praise the sun
The first to praise the moon
The first to hold the lone coyote
Last to set it free

Welcome me to a haven given
Oh, it's well received into my open arms
Oh, I, I ran in my sleep through shaking tremors
I felt the splitting earth echoing in my ears
And I feel it all

I'll be the first to praise the sun
The first to praise the moon
The first to hold the lone coyote
The last to set it free

Welcome me to your City of Angels
There's a Devil monkey laying on our backs
Now tell me, where's the heart? Where's the bullet for
breaking?
Who's gonna give me a weapon, a pacifying weapon?
An' I need it all

I'll be the first to praise the sun
The first to praise the moon, oh
The first to hold the lone coyote
The last to set it free
I said, I said, "Welcome me"

I'll be the first to praise the sun
The first to praise the moon, oh
The first to hold the lone coyote
The last to set it free
I said, "Welcome me"
