We're gonna make a break, that's what it's for  
And you will never hook and I can't take more  
You know too how to break when I'm walking and I'm  
sleeping  
I want to get you, even if you are on week-end  
To you to get right, I guess to get wrong  
I guarantee to you that I can not take more  
You know too how to fade and whoops and you're  
sneaking  
And when  
weeping  
And then I go  
And then I go

You got what you're looking for  
Baby gonna tell you goodbye  
You got what you're looking for  
I don't know, no I don't know  
Baby gonna tell you what I know  
Say me lie  
What we lied baby goodbye and

And then I walk what I will look someday  
And I walk on, and we stay  
And I say ..... ragga  
And I woke up upon di sound  
With the .....  
.....

I got my feelings  
You got yours  
When we get together  
And I make it your side, your side  
I got my feelings  
You got yours  
When we get together  
Wanna make it two four time times  
Two times three times  
Four time
