These years of your ignorant threats  
Has now reached it's end.  
Furiously I raise my arms  
In sign of total war.  
Nuclear launches are on it's way,  
They will pulverize you into dust.  
Divisions of panzar are on it's move,  
Expect on global extinction.

I'm charging against you.  
I'll fight you until death.  
I'm charging against you.  
Prepare for your final breath.

Extinction!  
Your scales of survival will reach it's bottom.  
Invasion!  
Your feeble power will be erased  
As we gain control.

Here you have my pace treaty:  
Surrender or fight! Fight!

I'm charging against you.  
I'll fight you until death.  
I'm charging against you.  
Prepare for your final breath.
