"In The Ashes Of Civilization"

Visit "[In The Ashes Of Civilization](#)" on MotoLyrics.com

I walk through
The ashes of civilization.
I do behold
My world of great attraction.

Some survivors escaped this planet
For a new life on the space colony.
But most people stayed
In my world of mourning and misery.

Genetic mutations do rapidly increase
'Cause of the nuclear disease.

I walk through
The ashes of civilization.
I do behold
My world of great attraction.

Mutated bodies lie
Scattered everywhere.
It's now an everyday sight
But who cares?

I walk through
The ashes of civilization.
I do behold
My world of great attraction.
