Found in human likeness  
And He reduced to the standards of the earth  
In famine He dealt with sufferings  
And in His deeds revealed His love and faith  
And all selflessness  
It's with His blood we bathe  
To focus on the name of the Lord Jesus

The Son of God  
And in fullness God Himself  
He came to our filth  
And died to our sins  
Rising to consecrate glory  
He rose us with Him from the abyss  
Breaking our blackened deeds and intent  
Rising within Him and now we live
