[chorus]

I found wings
Now I can fly
Got me high up in the sky
And for once I had bumps
I guess Iâ'm mad in love with you
If you say jump
Iâ'd ask how high
Because you give me butterflies
My heart pumps and it thumps
Cause I am mad in love with you

I needa tell you
But first can I trust you
Can you hold on
Cause I got some things to get off of my mind
It feels kinda funny
Or should I be running
If I give in, gotta win
Now itâ's time to be making you mine

When I hear your name
A chill goes down my back
Do you feel me, babe
Can you picture that cause
See, I really need you baby
And itâ's really driving me crazy
My body needs you desperately, physically
Believe this love is meant to be, meant to be
Promise that you'll never fail me
Will I ever be your lady
[chorus]

Mad in love (mad in love)
Mad in love (mad in love)
Mad in love with you
I guess I'm mad in love with you (2x)

I gotta have you
Cause thereâ's something about you
A guy like you is damn hard to find
Youâ're sweeter than honey

It ain't bout your money
Precious things, diamond rings
Ain't nothing to compare to you

When I hear your name
A chill goes down my back
Do you feel me, babe
Can you picture that cause
See, I really need you baby
And it's really driving me crazy
My body needs you desperately, physically
Believe this love is meant to be, meant to be
Promise that you'll never fail me
Will I ever be your lady

[chorus]

Mad in love (mad in love)
Mad in love (mad in love)
Mad in love with you
I guess I'm mad in love with you (2x)
