You are young, but very stupid  
You're theft and cheater and scoundrel  
You're very lazy and garrulous  
I wish to kill you when you're drunk

(And you fat bastard, why do you lie me everytime?  
You can only say(words)and nothing then...  
You want so much, but  
But you have done nothing for it...)

Sometimes you are opstimate  
And you reached nothing for yourown  
What will be then? Make your question!  
Without me, it will be end... !

What a hell are we together?  
You are nothing without me at all!  
By turns you made me angry,  
Despise and hate and offence!

[Chorus:]  
So much more that I can taste  
Do you see tears on my face?  
(This is) a result of my ego  
What nonsense between us all  
(But we still)kickin asses in a hall  
This is my life

Who am I? I wish to know  
What think you all about me  
I think I'm ideal  
But I'm sure, for them I'm worse at all

(In such days, always want to get away  
And don't want to meet noone)  
Go to hell, I wash my hands  
I wish to much to get away... now...
