On a starry night, down in Virginia
I fell in love with a blue eyed girl
Her kiss was warm, her touch was tender
The sweetest one in all the world

At night, I dream about her
In my dreams, she holds me tight
And when the clouds roll in at twilight
I sit and dream of a starry night

Then one day down in Virginia
My blue eyed girl she went away
I miss her love, I miss her kisses
I'll always mourn that cloudy day

At night, I dream about her
In my dreams, she holds me tight
And when the clouds roll in at twilight
I sit and dream of a starry night

Now if you're goin' to Virginia
Don't be fooled by a blue eyed girl
A starry night could leave ya dreamin'
Of the sweetest one in all the world

At night, I dream about her
In my dreams, she holds me tight
And when the clouds roll in at twilight
I sit and dream of a starry night
