

Infected Mushroom "Cities Of The Future"

Visit "[Cities Of The Future](#)" on MotoLyrics.com

We gonna run run run
To the cities of the future
Take what we can and bring back home
So take me down to the cities of the future
Everybody's happy and i feel at home

(x4)

I found myself

(x8)

We Gonna run run run
To the cities of the future
Take what we can and bring back home
So take me down to the cities of the future

Everybody's happy and i feel at home.

(x4)

I found myself

(x2)

We gonna run run run
To the cities of the future
Take what we can and bring back home
So take me down to the cities of the future
Everybody's happy and i feel at home.
