Inside the belly of a beast made of flesh and steel  
My flesh and blood no longer seem so real  
Inside this war machine that has blurred my sight  
Distorting my vision of what's wrong or right

Blistering speed with a barrage of no mercy  
Is the only thing fueling me to breathe  
I am the future breed created through pure insanity  
Simply shut off it I decide to think

I am the war machine  
Forced to lead, bleed the weak  
Lead by wicked hearts full of deceit  
The war machine

Blistering speed with a barrage of no mercy  
Is the only thing fueling me to breathe

I am the war machine  
Forced to lead, bleed the weak  
Lead by wicked hearts full of deceit  
The war machine

All guns are locked and loaded  
I am the weapon of mass destruction  
This is the Armageddon of man  
The time has come to unleash the master plan

Devastation and the ruins of man  
Barren lands and blood soaked hands  
Seek and destroy all survivors, nothing left but sand

I am the future breed created through pure insanity  
Simply shut off it I decide to think

I am the war machine  
Forced to lead, bleed the weak  
Lead by wicked hearts full of deceit  
The war machine
