Why do I have to kill you brother  
In the senseless battle?  
Time and again asking myself:  
What am I doing here?

I see the children crying under  
The weight of uncertain future  
Grows a fear inside my chest  
Despair and fear remains

[Chorus:]  
Why did you leave me alone?  
Fighting against my own daemons  
That consume my heart  
While around me  
I see just pain

I rise my sight  
And I feel the light  
That fills my heart  
From stars in the sky  
And I wanna cry  
For all that's left behind  
In my life

All my friends making their lives  
While I'm shooting the anger  
Of another that's controlling  
All of my life

Ripping fury strikes the battle  
No man's land, just slaves and  
Masters of a cruel destiny  
That tears us apart

[Chorus]

[Solo: Joshua]
