Living in the twilight
Screaming for vengeance
With the force of the thunder
It defends our land

[Bridge:]
Hear your voice
Screaming into yourself
When the night
Falls in your life

Through the bloody fields
Covered with mist
Glory you'll feel
In your heart

Together we'll be stronger
We can go on until the end
Our gods fighting our side
Fits raging adrenaline pumps

[Bridge]

[Chorus:]
Here I want to fight
I want to see my blood
Join the blood of heroes

Fate, written by the gods
Ain't no turning back
Sword and lances clashing

As the battle rages in the wind
I choose to taste victory or die

[Solo: Joshua / Felipe]

[Chorus]
