From the sea comes a breeze  
And it's whisper: "come for me"  
Those words in the sand...  
They were written by your hands

"Trust in me I will be back  
Through my eyes you'll see  
Where I was at, I will stay with you  
While you remember me and  
Our love will set me free"

[Bridge:]  
And I'm drowning in fear  
It's been too many years  
Maybe I should walk away  
And escape from all this pain

[Chorus:]  
Words in time fades away  
Sorrow has taken my hope  
And again I think, I know  
That my life must come to an end  
Without you it makes no sense

[Solo: Joshua / Felipe]

There's a shadow on the wall  
I will not see it anymore  
With this blade I will make  
My pain come to an end

Now I fade and I see  
Those shadows were for real  
It was you in the night  
Now I just can say goodbye

[Bridge / Chorus x2]
