One night I woke up late,
I couldn't stop thinkin' bout the games that we played
And so I took a ride,
Deep into my mind where I got nothin' to hide

You're like a drug of love,
Seducing me like every note was sent from above,
You crawled undermy skin,
I didn't notice anything until you were within

Keen on disco, when I go go,
Mr. DJ make me stay
Keen on disco, don't say no no
When I'm askin', make me stay Keen on disco
Keen on disco

At times I long for you,
I'm callin' and I'm fallin' I don't know what to doo
You're always on my mind,
Singin' softly to me that we're two of a kind
When you nibble my ear,
The bass is softly pumping and caressing my rear
You make me softly sweet,
And you're confusing me with every magic electric
Beat

Keen on disco, when I go go,
Mr. DJ make me stay
Keen on disco, don't say no no
When I'm askin', make me stay Keen on disco
Keen on disco

Magic, Electric, Disco, Disco [x2]

Keen on disco, when I go go,
Mr. DJ make me stay
Keen on disco, don't say no no
When I'm askin', make me stay Keen on disco
Keen on disco, Keen on disco, when I go go,
Keen on disco
