[Music:Terror]

[Lyrics:Psychopath & Bailey]

Darkness descends,I see you lying below  
You're feeling my power coursing through your soul  
I am the creator of the unknown  
I am your nightmare with you all alone

Unleashing my power,you're in my control  
Retaining possession I will never let go  
My visions are present I'll make them seem true  
Nothing can stop me nothing you can do  
Come here,in here with me...with me

Fearful of the silent evil that I put into your mind  
I'll never let you wake,never let you wake  
You are screaming but unheard they are only  
soundless cries  
I maintain authority I'll take your life at any time  
I'll never let you wake,never let you wake  
Can you feel the dark destruction emanating from my  
eyes  
In time,you'll be mine, and I'll lead you in  
Into the unknown...follow me...

Confront the flight the fear within it will never leave  
Tonight's the night,the endless night as I conduct the  
scene  
Embark with me,hands embraced to cross the final  
path  
Resent me,flee my wish I'll keep my deadly grasp

[LEAD-Hallman]

Darkness Descends,I see you lying below  
Your feeling my power coursing through your your soul  
I'm the creator of the unknown  
Leaving this nightmare with you all alone  
In here with me
