What am I? Trapped in this infernal body  
Raped of all - was joy in my mortal life  
Back from abyss - to return as I was  
Strange dimension - I am not myself

Betrayed by friends, engaged by demons - returned to  
life  
After years passed since disease - I hope myself to die  
again  
Transformed in a horrible creature - soldier of hell  
Emotions vortex possesses my soul - good and evil I  
confuse

Returned to life with immense powers, Forged by hell

Narrow capacities to use them, at the end I'll be back to  
Inferno  
I can't ignore the troubles of weak, my new life will end  
faster  
I can't support for my mortality I can't sustain remorse

Where's my soul  
I'm hell spawn

What am I? contested between hell and heaven  
Raped of all left only with remembrances  
Back from abyss to conquer my revenge  
Strange dimension Can't be back to normalcy
