

## **Infernal Torment "Eliminate"**

Fighters of peace and equality,  
fraternity, love and harmony  
Die in a fight for world liberty  
Your attitude becomes your destiny

Come, kiss my boots for the human race  
Come, kiss my boots and they'll break your face

Living to eliminate - YOU  
I'm living to eliminate - YOU

Sick of your guts, sick of your life

Why do you feel sorry for the innocent victims of war?  
People kill each other, rape each other, eat each other  
so what?

You try to ruin all the hate we humans create

You'll have to pay the price, The price is your life  
Your love will be your enemy, my hate, my friend  
Two automatic guns think better than one

Sick of your guts, sick of your life

Living to eliminate - YOU  
I'm living to eliminate - YOU  
Living to eliminate - YOU  
I'm living to eliminate - YOU

You kissed my boots for the human race  
You kissed my boots and they broke your face

Sick of your guts  
Kick 'em away  
Sick of your life  
Took it away
