Internal damage in my lungs  
Another cigarette is on its way  
Lots of smoke fills this place  
Smoking cigarettes in different ways

Smoke another cigarette label  
Smoke ten at a time if you're able  
Hear the sound of coughing people  
See the people biting nails

Trails of ash on my way  
I've been smoking all the day  
Cheating cigarette machines with foreign change  
It's a trick that never fails

INHALED  
I light a flame  
I scream in pain  
I have burned my fingers  
I drop the lighter in the dust  
The cigarette price is very high  
I could almost cry  
Bombing on its way  
The price I cannot pay

Cigarette factory - Termination  
No more smokes - Mass frustration  
A smart person - Selling pipes  
To the people - Of the nation

As I light my pipe  
You see me smoke  
Sleepy eyes staring black at you
