He have heard once about The Crock of Gold  
And he decided to get it  
He knew that his aim appears once a year  
In the most beautiful night of old creed

He sacrificed whole life for it  
He forgot about relatives, world  
He was dying but he tried each year  
In the most beautiful night of old creed

He never gave up but he lost  
He collapsed into oblivion  
But we know that he is alive  
And he is still searching

In the most beautiful night  
In the most beautiful night  
In the most beautiful night  
In the most beautiful night
