We're not stopping now  
They won't beat us to the ground  
Our country is fucked and we're aware  
Turn to our leaders and we get a blank stare

Stop the Slaughter! Stop the War!  
Death toll rising casualties of war!

They want peace now but will it show  
This is reality not a T.V. show  
War on terror, it's a lie  
What's accomplished when the children die

Stop the Slaughter! Stop the War!  
Death toll rising casualties of war!

Mothers losing children, brothers, and fathers  
Poor abandoned children, casualties of war  
Everywhere I look it's all the same  
What's accomplished when your children die

Stop the Slaughter! Stop the War!  
Death toll rising casualties of war!
