You make them believe a lie
That fills them up with guilt.
Banned from society
Corporations where they work

We will fight!
Til' the day we're left alone
Enough with your lies!
We will fight, not alone.

What do you get?
With what you're trying to prove
I don't want to be
A scumbag like you
We will fight
Til' the day we're left alone
Enough with your lies,
Open your eyes.

We will fight!
Til' the day we're left alone
Enough with your lies!
We will fight, not alone.

We will fight!
Til' the day we're left alone
Enough with your lies!
We will fight, not alone.
