Rushing through 30
Getting older every day
By two drawing pictures of innocent times
Can you add color inside these lines?

I want you to lead me
Take me somewhere
Don't want to live in a dream one more day

I want you to lead me
Take me somewhere
Don't want to live in a dream one more day

Sure, it would change my perspective
I'm certain I would change today
I'm certain it will change our ways
Would things fall into place?

I want you to lead me
Take me somewhere
I don't want to live in a dream one more day

I want you to lead me
Take me somewhere
Don't want to live in a dream one more day

I want you to lead me
Take me somewhere
Don't want to live in a dream one more day

I want you to lead me
Take me somewhere
Don't want to live in a dream one more day

Take me somewhere
Don't want to live in a dream one more day

Take me somewhere
Don't want to live in a dream one more day
