Shot for shot, let the bullets penetrate me  
Embrace me, tell me stories of gold and God's  
The precision in your voice  
Breaks the walls that I built  
Your eyes reach deep in life

Take a chance

Better cut much bigger than this  
A dark star, spend another day with me  
Get something that doesn't reflect  
It's dark, what I need, I'll take the chance  
Bring me the calm

When there's nothing  
Expose the dark side  
Awakened and emotional  
Expose the dark side  
Impossible to tame

Away from the eye of the storm  
Away, I find what is real in me

Throw yourself into the eye of Chaos  
Infiltrate me, sneak out before I awake  
Take out the trash and burn it  
Try to find a beautiful place to lay  
These fragile bones of mine

Away from the eye of the storm  
Away, I find what is real

Away from the eye of the storm  
Away, I find what is real in me

When there's nothing  
Expose the dark side  
Awakened and emotional  
Expose the dark side  
Impossible to tame

Away from the eye of the storm

Away, I find what is real

Away from the eye of the storm  
Away, I find what is real in me

Away from the eye of the storm  
Away, I find what is real in me
