"Don't Lose Your Mind"

Visit "[Don't Lose Your Mind](#)" on MotoLyrics.com

Don't turn around, There's no one there
Don't close your eyes, There's no way out
Stay in the room, The water's fine
Lose your fears, but Don't lose your mind

If you have to say it, It's not worth saying
If you have to have it now, it's not worth having
I have to tell you, You're not so great
By the time you understand It'll be too late

Don't turn around There's no one there
Don't close your eyes There's no way out
Stay in the room The water's fine
Lose your fears, but Don't lose your mind

If you have to say it, It's not worth saying
If you have to have it now, it's not worth having
I have to tell you, You're not so great
By the time you understand It'll be too late

Come along,
Take my hand,
Sing this song,
Understand.

Don't turn around There's no one there
Don't close your eyes There's no way out
Stay in the room The water's fine
Lose your fears, but Don't lose your mind

If you have to say it, It's not worth saying
If you have to have it now, it's not worth having
I have to tell you, You're not so great
By the time you understand It'll be too late.
