Faces remain faceless  
Staring deep in my soul  
A cold sense of evil  
Tearing my sanity  
Disturb my peacefulness  
By lividity and distress  
Pulsating on my anger  
My emotions are mortified  
Pleading my insanity  
To a wall that does not object  
Screaming to the emptiness and suffering  
It's my state of being  
Reject this tortured soul  
That clings onto the flesh  
And doesn't want to part  
Put to rest this entity inside of me  
It doesn't want to die  
Murder the integrity in me  
It's not what it used to be  
Creating a somber character  
Built on hostility  
But I intend to obliterate  
On my own passion for vengeance  
Eternal vengeance  
On the path of my wandering  
I shall find comfort from sorrow  
Eternal vengeance  
Behold the sight of obscenity  
Reflecting a wicked existence  
Eternal vengeance  
No passage for souls to be saved  
All hope suspended by pain  
Eternal vengeance  
The blind following the blind  
Since the period of ancient times  
Spewing blasphemy in tongues  
Critical and severed images  
Created for the benefit of mass obliteration  
Master minds are set to define global domination  
Seismic earthquake devastating  
Catastrophic period of time  
Apocalyptic

Shaken land raked over coals  
Nations collide  
Fighting for one power and rule  
A heavenly voice "It's Done"  
Descending with majesty  
Dark corners illuminate  
Filth seems to transgress  
Into the burning bowels of the abyss  
Breathing night of sacrilege burns with ice  
Defiant world of mass decay  
Demons attempt to mutilate  
Rape and deface the human race  
Intoxicate and suffocate  
The weak in mind are being violated  
I'm no longer of this world  
A spectator to a lion's den  
Waiting for the hour of death  
Waiting for the hour of my death  
Nails driven through my fears  
Blood turns into acid rain  
Casting a figure a shadow of misery  
Cesspools of evil vomit from a serpents mouth  
Unbelief possesses me  
While I still feel alone
