I'm coming back to you
Just like before.
I've been a lonely boy
Since I walked out your door.
If there's a life for us,
I don't know.
But I can't live like this
Anymore.

The time I spend alone has nothing to give.
It's repetition,
I'm coming back to you.
Repetition,
The only thing I can do.

I'm coming back to you,
This time to stay.
If I've learned one thing
It's that I can't stay away.
The time I spend alone has nothing to give.
The life I lead alone has nowhere to live.
It's repetition,
I'm coming back to you.
Repetition,
The only thing I can do.

And I can still recall
How you would hold me.
The way a vast wave
Broke so slowly.

It's repetition,
I'm coming back to you.
Repetition,
The only thing I can do.
Repetition,
And we can see this through.
It's repetition,
I'm coming back to you.
