There's something strange going on right here  
I can't explain, what's going on right here  
There's that look to every street  
And my heart just skipped a beat

I feel like there's someone watching  
And I feel like there's someone listening  
I'm all alone and the night surrounds me  
But I feel that something's found me

There's something in the air and girl, you drive me wild  
You can turn me on all night  
Something in the air, treat me like a child  
You can lead me on all night

There's a touch, I've never felt before  
There's a song, I've never heard before  
There's a light in every window  
And a fire behind every door

I feel like there's someone watching  
And I feel like there's someone listening  
I'm with you and your warmth surrounds me  
And I feel that love has found me

Something in the air and girl, you drive me wild  
You can turn me on all night  
Something in the air, treat me like a child  
You can lead me on all night

I know what you know, I feel what you feel  
I know what you know, I feel what you feel  
I know what you know, I feel what you feel  
I know what you know, I feel what you feel

Something in the air and girl, you drive me wild  
You can turn me on all night  
Something in the air, treat me like a child  
You can lead me on all night

Something in the air and girl, you drive me wild  
You can turn me on all night

Something in the air, treat me like a child  
You can lead me on all night

I know what you know, I feel what you feel  
I know what you know, I feel what you feel  
I know what you know, I feel what you feel  
I know what you know, I feel what, I feel what you feel
