Monkey shines  
Snow capped strangers  
Blind folded we hold hands  
Going nowhere and far  
A signpost empty

I forget who I am  
No road is forever dear friend  
So dangerous  
This place inside you

Lantana honey on my tongue  
Tastes like winter but warm inside  
Ah - I will dress red for you

I forget who I am  
No road is forever dear friend

So dangerous  
This place inside you

Now I forget who I am  
The red sun  
Glacier melts  
Inside my mouth  
Heart and lung  
I belong to you now  
So dangerous  
This place inside you

I forget who I am  
No road is forever dear friend  
Like cars and foreign places  
We lose ourselves here

So dangerous  
This place we've found
