I want a snowfall kind of love
The kind of love that quiets the world
I want a snowfall kind of love
'Cause I'm a snowfall kind of girl
I want a snowfall kind of love
That lights up the sky from below
I want a snowfall kind of love
That brings people to their window
Won't you bury me in your quiet love
Oh bury me in your quiet love
Bury me in your quiet love
And we will blow away
I want a snowfall kind of love
The kind of love that keeps you in bed all day
Oh I want to walk through with you
And watch it all melt away
Won't you bury me in your quiet love
Oh bury me in your quiet love
Bury me in your quiet love
And we will blow away
