...an endless empty turnaround...

Realize there's no one dare to fight
Who knows what never one of us
And now I as for the ground
Who knows what is it all about
As down as at side
A single kiss is all about
I realize the risk to try
And what was life all about

The rising sun is up on my face
If all i've seen it before
You build the memory when i say
Can this thing different happen moreÂ ?...
I wake up thinking after all
Through every seconds of my life!...

So don't ever try
Wanna die
On a freeway to the planet of ashes
So when it's done
Under the sun
Give it time so
Endless machine

An endless empty turnaround
I find in it no ecstasy survival
Is it all a feast
Who knows what is it all about
Realize that it may sounds suprise
But second kiss is all applied
I realize we all at bay
The answer of lies could offer us

Suprise is rising i could
It's time to hide the seek machine
You'll bring me down when i say
Will it be different anymore
And i can stay home after all
Through every seconds of my life!...

Don't know what to say
Exactly
I'm afraid but i will affect you
Don't know where to go.oh no go.
Don't ever die, if you wanna die get a dive within...
Get a real life
Oh i wanna swim, but don't want to
To ever try until you get some affections

Aaaahhhhhh

Suprise is rising i could
It's time to hide the seek machine
You'll bring me down when i say
Will it be different anymore
And i can stay home after all
Through every seconds of my life!...

So don't ever try
Wanna die
On a freeway to the planet of ashes
So when it's done
Under the sun
Give it time so
Endless machine...

Yeahhh!

Planet of ashes
So don't ever try
Wanna die on
A freeway to the planet of ashes

I realize the risk to try
But second kiss is all applied
The answer of lies could offer us
An endless empty turnaround (2x)
