

Butterfingers "Pacific"

Visit "[Pacific](#)" on MotoLyrics.com

Born to be lame
In common wealth
What's with their blessed mentality

Your superficial protocols
I say, i'm coming right behind

Several things i've learnt
A thousand things i've burnt
Complications first before the honey

There's nothing real anymore
You're pure and she's so synthetic
It's back to the retro-motion world

Domestic nightmares
To make no friends
You turn your insides out

Dressed secular
Lean on the fast life
Wear out to tear down
You're living a waking dream

Several things i've learnt
A thousand things i've burnt
Complications first before the honey

There's nothing real anymore
You're pure and she's so synthetic
It's back to the retro-motion world (2x)

Did i react?
There's time on and
And everything's done
