Stay or go -  
I can't stand it anymore  
You must know - me or her  
You are wavering and that hurts

I will not die when you leave me,  
I will not cry - you can believe me  
Night after night I am waiting for you,  
Night after night I am longing for you -  
For your touch, for your love

I will not die when you leave me,  
I will not cry - you can believe me  
Night after night I am waiting for you,  
Night after night I am longing for you -  
For your touch, for your love

Stay or go -  
You need us both, I know  
She's your wife, that's true,  
But I'm not made to share my love with her

I will not die when you leave me,  
I will not cry - you can believe me  
Night after night I am waiting for you,  
Night after night I am longing for you -  
For your touch, for your love

Night after night I am waiting for you,  
Night after night I am longing for you -  
For your touch, for your love
