Sitting in the back of the bus
Talking about nothing, oh, we're talking about us
Watching as the world goes hammering on,
hammering on

You say that you got nothing left
There's nothing left in you to find
You're gonna ride it out, gonna wait it out, living to die
You're living to die

No one's gonna wait for you
No one's gonna wait for you

So do it now, do it right now
Don't waste a minute on the darkness and the pity
sitting in your mind
And do it right now, and do it right now

Everything will stop on a dime
Everything will crash into itself in good time
Do you wanna beat your own heart, beat your own heart

Or leave it behind, or leave it behind?

No one's gonna wait for you
No one's gonna wait for you

So do it now, do it right now
Don't waste a minute on the darkness and the pity
sitting in your mind
And do it right now, and do it right now

I'm gonna get up, I'm gonna get right out of bed, get
out of my bed
You're gonna stand up, you're gonna stand right up
again, stand right up
Again
I'm gonna get up, I'm gonna get right out of my bed,
get out of my head
You're gonna stand up, you're gonna stand right,
you're gonna stand up
You're gonna stand up

So do it now, do it right now
Don't waste a minute on the darkness and the pity
sitting in your mind
And do it right now, and do it right now
Do it right now
