All I need is a bitter song to make me better. Much better.

All I need to write is a bitter song to make me better. Much better.

Mmmm Mmmm Mmm  
Mmmmm mmmm mmmm

It found me to hold me, but I don't like it at all.  
Won't feed it, won't grow it, it's folded in my stomach.  
It's not fair, I found love.  
It made me say that.  
Get Back you'll never see daylight, If I'm not strong, it just might.

All I need is a bitter song, to make me better. Much better.

All I need to write is a bitter song to make me better.  
I feel better, I feel better.
