Damn you make up your mind  
I pop a pill at a time  
And you've got it crawling like my skin  
When you don't wanna be found  
You dig a hole in the ground  
Choke down the filth you're living in

Is this the reason I've been low?  
If this is wrong then let me go  
It's a long way down  
But you never listen  
It's the wrong time now  
But you never give in (yeah)

Smash your grip on control  
For sale sign on your soul  
Bite down, smile and take the pain  
Pressure tested to break  
What choice will you make?  
One second or Infinity?

Is this the reason I've been low?  
If this is wrong then let me go  
It's a long way down  
But you never listen  
It's the wrong time now  
But you never give in

Give me one second to breathe!  
One second  
One-one-one one second  
One Second  
One second

Is a long time now  
But you never listen  
It's the wrong way around  
But you never give in
