Shades of gangrenous grey  
Starts at the toes  
Wounds that do not heal  
Slowly it grows  
Plastic bag  
Draped over the limbs  
Hiding the stench  
Geriatric masochism  
Engorged with fluid  
Bag suffocated  
Waterlogged, blackened feet  
Toes obliterated  
Resembling legs  
Washed up on the shore  
Hidden from the world  
Geriatric masochism  
Desperation evident  
Amputation eminent  
They perform the operation  
There cutting of the feet  
Amateur amputation  
They burn the stubs of meat  
Unable to hide  
The horror is now discovered  
Order the task  
Of truncation  
Unable to hide  
The body is now dismembered  
Order the task  
Of truncation
